CPA CLEAN POWER ALLIANCE

Understanding Your Bill

Clean Power Alliance knows utility bills can be confusing. We are here to help.

Your monthly electricity bill consists of charges from both Clean Power Alliance (CPA) and Southern California Edison (SCE) as well as state required charges and taxes.

CPA

Charges on your bill are for the clean energy that we purchase on behalf of our customers — this is called a generation charge. CPA charges represent about 1/3 of your total bill.

- The electricity cost on your bill reflects the specific energy option you have selected: 100% Green Power (100% renewable energy), Clean Power (50% clean energy) or Lean Power (40% clean energy).
- All electricity purchased for you comes from CPA.

SCE

Your monthly electric bill is sent to you by SCE. CPA does not own or operate the infrastructure that delivers electricity to you.

- SCE charges reflect the cost of delivering electricity to you.
- Even though you are a CPA customer, you have an SCE account number because SCE is responsible for sending your bill and getting electricity to your home or business.

This sample bill is representative of a residential customer on the domestic time of use rate and does not reflect specific customer data or all customer rate options. If you have questions about your rates, please contact CPA customer service for assistance.

1 Your customer account number.

2 The first line of your billing detail lists your total delivery charges from SCE. The second line lists your total generation charges from CPA. This is not an additional charge – it simply replaces the generation charges that would be charged by SCE if you were an SCE customer.

3 The bar chart shows the amount of energy you used in this billing period. If your bill has gone up or down significantly, check to see if this may be due to changes in your usage.

Things you should know

Fixed Recovery Charge

SCE has been permitted to issue bonds that enable it to recover more quickly certain costs rel catastrophic wildfires. Your bill for electric service includes a Fixed Recovery Charge that has t those bonds. The right to recover the Fixed Recovery Charge has been transferred to a separa Entity) that issued the bonds and does not belong to SCE. SCE is collecting the Fixed Recover Purpose Entity.

- *$7.14 new system generation charge*

Your overall energy charges include:
- *$1.34 franchise fees*

Additional information:
- *Service voltage: 240 volts*
- *Generation Municipal Surcharge (GMS) factor: 0.009261*
- *2018 Vintage CRS*

Rate Identification Number - RIN

USCA-SCXX-1234-1234

In the future, you might use the Rate Identification Number (RIN) to program smart devices like smart thermostats, EV chargers, or energy management systems once the manufacturer has enabled its use. Once these smart device features are available, simply scan the QR code using the smart device app for setup. To learn more, visit sce.com/helpcenter/rin.

7 This Rate Identification Number (RIN) may help program smart devices. Learn more at energy.ca.gov

Things you should know

Clean Power Alliance service expands to 35 cities
CPA welcomes our new customers in Hermosa Beach, Monrovia, and Santa Paula who start service in March 2024. Choosing CPA energy options makes communities cleaner and more sustainable. See your community's environmental benefits at CleanPowerAlliance.org/communities.

Winter energy savings tip
When you leave the house or before you go to sleep, turn the thermostat down a few degrees to save on heating bills. A programmable thermostat makes it easy to control the temperature. Learn more at CleanPowerAlliance.org/powerresponse.

Did you know?
Clean Power Alliance is ranked the #1 Green Power Provider in the country by the U.S. Department of Energy's National Renewable Energy Laboratory. Learn more about this exciting designation at CleanPowerAlliance.org/news.

CPA's Privacy Policy
Clean Power Alliance's privacy policy is available at CleanPowerAlliance.org/privacy-policy.

4 The details of your new charges section indicates how much energy you used during the billing period at each Time-of-Use rate for your SCE delivery charges. Electricity prices are typically lower early in the day, overnight, and on weekends.

5 Detail of your SCE Delivery Charges.

6 Community Choice Aggregation (CCA) charges are surcharges paid by all CCA electricity customers.

The DWR Bond Charge and CTC (Competition Transition Charge) are legacy charges, some of which are currently used to support the California Wildfire Fund.

The PCIA (Power Charge Indifference Adjustment) is a fee charged to CCA customers for the costs associated with energy contracts that are collected by SCE. CPA discounts its generation rates to account for PCIA and to keep our customers' total bills competitive with SCE.

8 POD-ID= Point of Delivery Identification number. The POD-ID is a unique account number that identifies the location of service.

9 Your rate (CPA) and billing period.

10 Detail of CPA's Generation Charges.

11 The Utility Users Tax is established by local city or county ordinances and is collected on your electricity bill. It is not charged by your energy provider.

12 Energy surcharge is collected from all electricity customers statewide to fund clean energy programs and projects, including the activities of the California Energy Commission.
