Notification: Important Change to Your Electronic Data Interchange (EDI) SCE Billing

Dear Valued Customer:

Starting with your first meter read date on or after **<Start>**, your electricity account(s) will be automatically enrolled in Clean Power Alliance service. Clean Power Alliance is a locally controlled energy provider that currently serves electricity to approximately 1 million customers in 32 communities across Los Angeles and Ventura Counties. Your community joined Clean Power Alliance to give residents and businesses new clean energy options.

This letter explains how your enrollment with Clean Power Alliance may impact your Electronic Data Interchange (EDI) Billing. Your account(s) listed above is currently served by an EDI Billing vendor that does not support Clean Power Alliance billing. As a result, your account(s) is scheduled to be removed from EDI Billing when your Clean Power Alliance service begins, and you will begin receiving a hard-copy bill sent to the mailing address on file with Southern California Edison (SCE). To view an up-to-date list of approved vendors, visit our website at cleanpoweralliance.org/bill.

Note: If you have already opted out of Clean Power Alliance, you can disregard this letter.

How does Clean Power Alliance service work?

You will automatically begin receiving energy purchased by Clean Power Alliance that is competitively priced with SCE, your current energy supplier. SCE will continue to be responsible for delivering your power, maintaining the infrastructure, and providing financial assistance for qualified customers and rebates for energy efficiency measures. SCE will also continue sending your electric bill, which will now include SCE charges for your power delivery and Clean Power Alliance charges for your power supply/generation.

What are my choices?

If you do nothing, your account(s) will start at **<Default>**, the Clean Power Alliance default rate option chosen by your City or County, but you can change between Clean Power Alliance's three rate options at any time:

- **Lean Power**, which provides 36% renewable energy at a 1-2% overall bill discount as compared to SCE base rates
- **Clean Power**, which provides 50% renewable energy at a 0-1% overall bill discount as compared to SCE base rates
- **100% Green Power**, which provides 100% renewable energy at a 7-9% overall bill premium as compared to SCE base rates

This pricing is for a typical residential or business customer and subject to Clean Power Alliance Terms and Conditions of Service.¹

¹ Available at www.cleanpoweralliance.org/terms-and-conditions.

You can also opt out of Clean Power Alliance and remain with SCE for both your power supply and delivery. Compare your Clean Power Alliance and SCE rate options by using our bill comparison tool at cleanpoweralliance.org/compare to decide which option is best for you. To learn more, change your rate, or opt out and remain with SCE, please visit cleanpoweralliance.org or contact us at **888-585-3788 (TTY 323-214-1296)** or customerservice@cleanpoweralliance.org.

We look forward to offering you Clean Power Alliance's benefits of local management and control, stable, competitive rates, and cleaner energy. Thank you for being our future customer and please do not hesitate to contact us to ask questions or learn more about our service options, customer programs, and benefits!

Sincerely,

Account Services
Clean Power Alliance
