## Notification: Important Change to Your SCE Green Rate Participation

Dear Valued Customer:

Starting with your first meter read date on or after **<Start>**, your electricity account(s) will be automatically enrolled in Clean Power Alliance service. Clean Power Alliance is a locally controlled energy provider that currently serves electricity to approximately 1 million customers in 32 communities across Los Angeles and Ventura Counties. Your community joined Clean Power Alliance to give residents and businesses new clean energy options.

This letter explains how your enrollment with Clean Power Alliance will impact your Southern California Edison (SCE) Green Rate participation. Once your account(s) transfers to Clean Power Alliance service, you will no longer be able to participate in the SCE Green Rate program, however, you will be automatically enrolled in our corresponding rate option:

- If you are enrolled in SCE's 50% Green Rate program, you will be automatically enrolled in our **Clean Power** rate option, regardless of the default rate option chosen by your community. Clean Power provides 50% renewable energy at competitive rates compared to SCE.
- If you are enrolled in SCE's 100% Green Rate program, you will be automatically enrolled in our **100% Green Power** rate option, regardless of the default rate option chosen by your community. 100% Green Power provides 100% renewable energy at competitive rates compared to SCE.

Note: If you have already opted out of Clean Power Alliance, you can disregard this letter.

### How does Clean Power Alliance service work?

You will automatically begin receiving energy purchased by Clean Power Alliance that is competitively priced with SCE, your current energy supplier. SCE will continue to be responsible for delivering your power, maintaining the infrastructure, and providing financial assistance for qualified customers and rebates for energy efficiency measures. SCE will also continue sending your electric bill, which will now include SCE charges for your power delivery and Clean Power Alliance charges for your power supply/generation.

Even though you will be automatically enrolled in the Clean Power Alliance rate option that corresponds to your SCE Green Rate, you can always change between Clean Power Alliance's three rate options: **Lean Power**, which provides 36% renewable energy at the lowest possible cost, **Clean Power**, which is 50% renewable, or **100% Green Power**, with zero carbon content. You can also opt out of Clean Power Alliance and remain with SCE for both your power supply and delivery. Compare your Clean Power Alliance and SCE rate options by using our

bill comparison tool at [cleanpoweralliance.org/compare](https://cleanpoweralliance.org/compare) to decide which option is best for you.

To learn more, change your rate, or opt out and remain with SCE, please visit [cleanpoweralliance.org](https://cleanpoweralliance.org) or contact us at **888-585-3788 (TTY 323-214-1296)** or **[customerservice@cleanpoweralliance.org](mailto:customerservice@cleanpoweralliance.org)**.

We look forward to offering you Clean Power Alliance's benefits of local management and control, competitive rates, and cleaner energy. Thank you for being our future customer and please do not hesitate to contact us to ask questions or learn more about our service options, customer programs, and benefits!

Sincerely,

Account Services  
**Clean Power Alliance**
