

**Clean Power Alliance** has been the electricity provider for the City of Rolling Hills Estates since 2018. Clean Power Alliance provides local control and clean, renewable energy at competitive rates across 32 member cities and counties in Southern California.

## What changed?

As of October 2020, the default rate for commercial customers in the City of Rolling Hills Estates changed from **Lean Power** (36% renewable) to **Clean Power** (50% renewable). The City elected to change the default rate in April 2020 to help meet the community's climate and environmental protection goals.

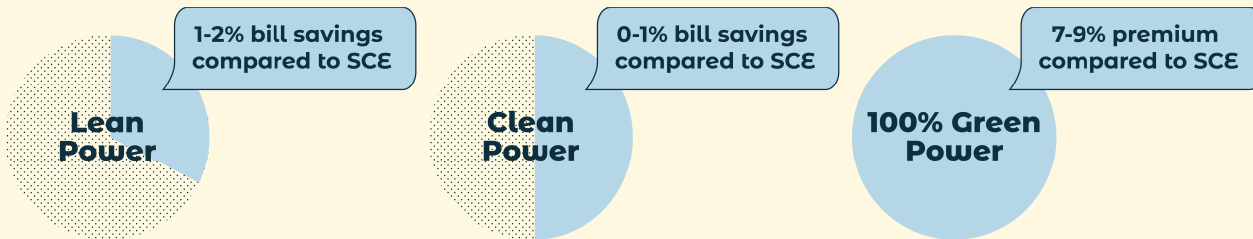

## What does it cost?

Clean Power costs about the same as SCE's default rate, while providing businesses higher renewable energy content. Compare your Clean Power Alliance and SCE rate options at: [cleanpoweralliance.org/compare](https://cleanpoweralliance.org/compare).

## What are my choices?

You can change your business's rate at any time, at no cost, to one of Clean Power Alliance's other rate options: Lean Power (36% renewable energy) or 100% Green Power (100% renewable energy) by calling 888-585-3788 or visiting: [cleanpoweralliance.org/rates](https://cleanpoweralliance.org/rates).
