

TASK ORDER

Long-Term RFO Support Services for 2023 Clean Energy RFO

I. TASK ORDER SUMMARY

Clean Power Alliance (“CPA”) is seeking proposals from qualified and experienced contractors (individually, a “Proposer” and collectively, “Proposers”) to support CPA’s 2023 solicitation for long-term clean energy, storage contracts and potentially gas fired tolls, including solicitation design, Requests for Offer (“RFO”) administration, and offer evaluation and selection.

II. ABOUT CLEAN POWER ALLIANCE

CPA is California’s largest Community Choice Aggregation (“CCA”) program, established in 2017 as a Joint Powers Authority made up of 32 local agencies across Los Angeles and Ventura Counties. These agencies have joined together to provide cleaner electricity at competitive rates, offering a choice in electricity service providers for the first time to over 1 million customers in our region.

III. TASK ORDER BACKGROUND

On June 24, 2021, the California Public Utilities Commission (“CPUC”) issued its Decision Requiring Procurement to Address Mid-Term Reliability (“MTR”) (2023-2026) (“the Decision”). The Decision orders load serving entities (LSEs), including CPA, to procure 11,500 MW of new capacity statewide to come online between 2023 and 2026. In June 2023, CPA will be launching its 2023 Clean Energy RFO to procure additional new-build resources to fully comply with the Decision and to procure other additional long-term utility scale clean energy contracts that qualify as Renewable Portfolio Standard (“RPS”) eligible that will help CPA meet additional RPS and Resource Adequacy (“RA”) compliance requirements.

CPA is seeking to contract with projects that qualify as either RPS eligible, MTR eligible, and/or include energy storage technologies and potentially gas fired tolls. CPA is seeking proposals from qualified Proposers to provide technical energy evaluation services for this solicitation, as described in the task list below. Proposals should demonstrate how the RFO platform will accommodate a high volume of bids as well as allow users the flexibility to provide differentiated offers.

IV. TASK LIST

A. Task 1: In advance of the RFO launch, support solicitation design and offer selection criteria.

1. Support CPA’s development of the solicitation scope and process design, including refinement of scope of work and schedule.
2. RFO selection criteria will incorporate the following quantitative and qualitative factors:
 - a. Energy, Ancillary Services, and Resource Adequacy value.
 - b. Development risk.
 - c. Environmental stewardship.
 - d. Workforce Development.
 - e. Benefits to Disadvantaged Communities.
 - f. Project Location.

Task 1 Deliverables:

- Final solicitation process and schedule; framework for offer qualification and selection criteria, pre-launch notification.

B. Task 2: Administration of requests for offers of renewable energy projects.

1. Provide input on CPA's requested products [Note: form power purchase agreements ("PPAs") will be provided by CPA].
2. Provide feedback on CPA's solicitation materials and a comprehensive solicitation protocol to be issued to potential providers [Note: solicitation materials are anticipated to be similar to those used in CPA's 2022 Mid-Term Reliability RFO].
3. Provide a submission platform that accommodates a high volume of bidders, with multiple, differentiated offers from each bidder.
4. Manage Q&A process to ensure conforming proposals are provided, including all communication with bidders.
5. Project manage the solicitation process to ensure key dates are met.

Task 2 Deliverables:

- Written solicitation protocol; host website for receipt of offers; miscellaneous RFO administration services.

C. Task 3: Proposal evaluation and portfolio assessment.

1. Conduct initial QA/QC of offers and notify bidders of errors needing correction.
2. Build a valuation model to perform financial analysis of individual projects and portfolios of projects to assess value and assist CPA with constructing the optimal portfolio of projects for CPA¹. Proposals should describe in detail how the tool will function and include valuation methodology for RPS-only, RPS plus storage, RA-only, gas tolls and storage-only offers.
3. Longlist Summary: Analyze project developers, project characteristics, and offer details to present offers as an initial comprehensive list of qualified and conforming project offers. The longlist deliverable will include a comprehensive Excel spreadsheet summarizing all offers with key descriptive information for each offer. The deliverable will also include a summary of RFO metrics and trends to be presented to CPA's Board of Directors Energy Committee.
4. Valuation Ranking: perform advanced analytics on all conforming offers. Present results as a comprehensive Excel spreadsheet summarizing all conforming offers with key descriptive information and selection criteria ranking for each offer while highlighting the most attractive projects to procure. To facilitate CPA's selection process by the RFO review team² and subsequent presentation to the Energy Committee, the valuation ranking should be provided to CPA in comprehensive and easy to understand summary report along with summary of RFO metrics and trends.

Task 3 Deliverable:

- Evaluation of all submitted offers and analysis of selected CPA portfolio and valuation ranking deliverables as described above.

D. Task 4: Ongoing valuation support for offer variations.

1. Valuation of individual offer variants for approximately 10 offers that may have variations to standard RFO protocol terms. For example, variations on project sizing or term length.

Task 4 Deliverable:

- Evaluation of one-off non-conforming offer variants as compared to both the original offer and the broader longlist valuation.

¹ Unless otherwise agreed by CPA in writing prior to the start of work under this Task Order, all models shall be produced in Excel and provided to CPA in unlocked formats.

² The review team will include CPA's senior management and 1-3 members of CPA's Board of Directors.

V. PROJECT SCHEDULE AND COORDINATION

Each task listed in Section IV, above, will be undertaken in close coordination with CPA’s project team. The consultant will discuss initial findings or approaches for each task with CPA’s project team before developing final work products in order to avoid rework. CPA may, at its sole discretion, accept or reject any or all submittals submitted in response to this task order. CPA also may, in its sole discretion, make no award for this task order or cancel this task order in its entirety. In addition, CPA may, at its sole discretion, only elect to proceed with a task order for some of the services included in the proposal. CPA further reserves its right to waive minor errors and omissions in proposals, request additional information or revisions to submittals, and to negotiate with any or all qualified Proposers.

CPA shall not be liable for any costs incurred by the qualified Proposer in connection with the preparation and submission of any submittal. CPA has the right to reissue the task order at a future date.

X. CONFIDENTIALITY AND PUBLIC RECORDS

Proposals submitted for this task order shall become the exclusive property of CPA. CPA is subject to the California Public Records Act ("CPRA"). A blanket statement of confidentiality or the marking of each page of the proposal as confidential shall not be deemed sufficient notice of a CPRA exemption, and a Proposer who indiscriminately and without justification identifies most or all of its proposal as exempt from disclosure or submits a redacted copy may be deemed non-responsive.

CALIFORNIA PUBLIC RECORDS ACT
CALIFORNIA PUBLIC RECORDS ACT ACKNOWLEDGEMENT AND AGREEMENT

The undersigned duly authorized representative, on behalf of (Contractor), acknowledges and agrees to the following:

The contents of its proposal in response to the Task Order solicitation, the contract and any documents pertaining to the performance of the Task Order resulting from this contract are public records, and therefore subject to disclosure unless a specific exemption in the California Public Records Act applies.

If a Contractor submits information it believes are confidential or proprietary, the Clean Power Alliance (CPA) may protect such information and treat it with confidentiality only to the extent permitted by law. However, it will be the responsibility of the Contractor to provide to CPA the specific legal grounds on which CPA can rely in withholding information requested under the California Public Records Act, should CPA choose to withhold such information.

General references to sections of the California Public Records Act will not suffice. Rather, the Contractor must provide a specific and complete legal basis, including applicable case law that establishes the requested information is exempt from the disclosure requirements of the California Public Records Act.

If the Contractor does not provide a specific and detailed legal basis for withholding the requested information within a time specified by CPA, CPA will release the information as required by the California Public Records Act and the Contractor will hold CPA harmless for release of this information.

It will be Contractor's obligation to defend, at Contractor's expense, any legal actions or challenges seeking to obtain from CPA any information requested under the California Public Records Act withheld by CPA at the Contractor's request.

Furthermore, the Contractor shall indemnify CPA and hold it harmless for any claim or liability, and defend any action brought against CPA, resulting from CPA's refusal to release information requested under the Public Records Act withheld at Contractor's request.

Nothing in this Agreement creates any obligation for CPA to notify the Contractor or obtain the Contractor's approval or consent before releasing information subject to disclosure under the California Public Records Act.
