

Clean Power Alliance customer programs make it easy for you to conserve energy, protect the environment, and save money.

DID YOU KNOW?

CPA programs and clean energy options have helped our customers avoid over 7.1 billion pounds of harmful greenhouse gas emissions since 2018. Thank you for making Southern California cleaner and more sustainable!

Learn how you can participate at CleanPowerAlliance.org/programs.

P.O. Box 811130, Los Angeles, CA 90081

Presorted Standard U.S. Postage PAID Los Angeles, CA Permit No 3564

Green- $e^{\$}$ Energy meets the environmental and consumer-protection standards set forth by the nonprofit Center for Resource Solutions. Clean Power Alliance offers Commercial and Industrial customers the option to opt-in to a 100% Green Power product that is Green- $e^{\$}$ Energy certified. Learn more at www.green-e.org.

Clean Power Alliance (CPA) leads the nation in serving the most customers with 100% renewable energy! At the end of 2022, 615,913 CPA customers received 100% Green Power, 261,928 received Clean Power, 121,973 received Lean Power, and 6,044 received Power Share. The generation data below represents 2022 data and is provided in the Annual Report to the California Energy Commission's Power Source Disclosure Program. This information is required by the California Energy Commission to be sent to any customer served by CPA during 2022.

Percentage of Retail Sales Covered by Retired Unbundled RECs ³ :						0%	0%	0%	0%	

¹The eligible renewable percentage above does not reflect RPS compliance, which is determined using a different methodology.

For specific information about this electricity portfolio, contact:

Clean Power Alliance of Southern California (888)585-3788

For general information about the Power Content Label, visit:

https://www.energy.ca.gov/programs-and-topics/programs/power-source-disclosure-program

²Unspecified power is electricity that has been purchased through open market transactions and is not traceable to a specific generation source.

³Renewable energy credits (RECs) are tracking instruments issued for renewable generation. Unbundled renewable energy credits (RECs) represent renewable generation that was not delivered to serve retail sales. Unbundled RECs are not reflected in the power mix or GHG emissions intensities above.
