

⚡ Power for Good

City of
Alhambra

Alhambra is going to 100% Green Power!

Starting in October 2023, 100% clean, renewable energy from sources like the sun and wind will power homes and businesses in Alhambra.

This will reduce more than **129 million** pounds of greenhouse gas emissions annually, which is like taking **13,000** gas-powered cars off the road or planting nearly **968,000** trees and growing them for a decade.

Thank you, Alhambra!

What does this mean for you and your electricity bill?

Using more renewable energy helps reduce the impacts of climate change. Because clean energy costs a little bit more, a typical bill for residents and small businesses will go up by approximately 4%, or about \$4 for every \$100 of electricity charges.* Follow Clean Power Alliance for energy saving tips that you can use to offset this cost.

Do you have a choice? Yes!

If you want to keep your current energy selection or learn more about other rate options, we are here to assist finding the option that is best for you.
