

RFP – BTM Solar and BESS Consulting Engineering Services

Questions & Responses

#	Question	Response
1	Has CPA considered partnering with SoCalREN Public Agency Programs for this program?	CPA regularly coordinates with the Southern California and Tri-County Regional Energy Networks (RENs) on the portfolio of programs we operate. CPA's member agencies are encouraged to participate in additional programs as they'd like, however, direct coordination by Proposer(s) to assist in separate program implementation is not included in the Power Ready scope.
2	Will bidders be encouraged to coordinate services with existing programs such as SoCalREN Public Agency Programs?	Coordinating with other program offerings is not anticipated to be part of the Proposers scope. Proposer(s) are not encouraged to include additional tasks beyond the specified scope.
