### Introduction

#### **About Our Rates**

Clean Power Alliance's rates are established by its Board of Directors. Any changes to Clean Power Alliance rates will be adopted at duly noticed public meetings of the Board of Directors.

The rates shown in this document are for electric generation/supply only. Please visit SCE.com for delivery rates and schedules.

#### **100% Green Power for CARE Customers in Default** Jurisdictions

Hermosa Beach, Monrovia, and Santa Paula have selected 100% Green Power as their default CPA rate product.<sup>1</sup> Customers in these jurisdictions that participate in California Alternate Rates for Energy (CARE) receive 100% renewable power at a reduced cost.

Clean Power Alliance is committed to giving every customer the opportunity to be a champion for clean energy, as well as ensuring our customers have choices when it comes to their energy needs. At any time, any 100% Green customer can choose to move to our **Clean Power** option, which provides 50% clean energy content at cost-competitive rates, or our **Lean Power** option, which provides 40% clean energy content and offers a rate savings compared to SCE base rates. Customers can change their rate product option by contacting our Customer Service Center at 888-585-3788, or visiting our website at www.cleanpoweralliance.org/rate-options.

#### Wireless Technology Rate (WTR)

Effective as of July 1, 2024. WTR accounts are assigned a usage tier by Southern California Edison, and are billed a fixed amount each month based on the WTR energy rate and the maximum usage for that tier. Delivery charges and PCIA not included.

## **Peak Management Pricing (PMP) Rates**

Effective as of July 1, 2024, surcharge and credit rates for the PMP program are shown in the table below. Surcharge rates are added to any energy consumed during on-peak hours (4 p.m. to 9 p.m.) on PMP Event Days. Credit rates apply on non-event days as a credit to your normal rate during on-peak hours in the summer months of the program (June-September).

| Rate Schedule                             | Surcharge Amount (Applied to all energy consumed during PMP events) | Summer Incentive<br>Credits*           |

\*Incentive credit is applied to the maximum monthly on-peak demand in kW, except for TOU-GS-1-E/TOU-GS-1-ES, for which it is applied to the monthly on-peak energy usage in kWh.

# Wind Machine Credit (WMC) Rates

Agricultural customers served under a PA-2 rate schedule who incur energy usage during the Winter Season solely for wind machine operations, that have already been determined eligible by SCE, will receive a monthly Demand credit based on highest recorded monthly kW demand registered during non-peak periods. Applicable only to customers whose monthly maximum demand registers below 200 kW and that previously received this credit from SCE.

| Rate Schedule | Wind Machine Credit* |
|---------------|----------------------|
| TOU-PA-2      | \$6.33/kW            |

\*Wind machine credit is applied based on the highest recorded monthly kW demand registered during nonpeak periods in kW.
