By signing this form, the customer authorizes SCE to enroll the Customer's service account(s) set forth above in the Flexible Pricing Rate Pilot (Pilot), subject to the eligibility requirements and terms described

¹ Please ensure service account, customer, name, and address matches your SCE Bill. More information on where to find this information is in the additional information section of this document.

in Attachment A.

The customer authorizes Clean Power Alliance (CPA), Southern California Edison (SCE), and the Automated Service Provide (ASP) listed above (if applicable) to provide customer information regarding utility services furnished by CPA and SCE to each other to effectuate customer participation in the Pilot. This information may include billing and customer records, billing history, and meter usage data used for bill calculation for the specified Customer service account(s). Information may be shared among CPA, SCE, and the ASP after the customer's enrollment in the Pilot ends in order to complete the settlement of bills. CPA will handle any such data in compliance with its Privacy Policy.²

Customer understands that CPA and SCE do not guarantee that submission of this form ensures that Customer's service account(s) will be enrolled in the Flexible Pricing Rate Pilot. The customer understands that all enrollment requests are subject to verification and status eligibility, which may include CPA's and SCE's verification of customer information. The customer understands that enrollment will not be effective until CPA and SCE approve the request.

For Customers enrolled with an ASP

Customer acknowledges that the ASP is not CPA's or SCE's agent for any purpose. CPA and SCE shall not be liable for any damages resulting from any acts, omissions, or representations made by the ASP in connection with the ASP's solicitation of Customer or with the ASP's performance with respect to its role in the pilot. CPA and SCE shall not be liable to Customer for any damages caused to the Customer for any failure by the ASP to comply with CPA's or SCE's tariffs or for any damages caused by the ASP's failure to perform any commitment to the Customer.

Customer hereby releases, holds harmless, and indemnifies CPA and SCE from any liability, claims, demands, causes of action, damages, or expenses resulting from any release of information to the ASP pursuant to this Authorization; the unauthorized use of this information by the ASP; and from any actions taken by the ASP pursuant to this Authorization, including rate changes.

² CPA's Privacy Policy is available at <https://cleanpoweralliance.org/privacy-policy/>.

- I attest that I am authorized to enroll the accounts listed above in the Flexible Pricing Rate Pilot and that the foregoing information is true and correct. I also hereby indicate my consent to execute and submit this document electronically.
- I have read the pilot description and acknowledge and agree to the participation requirements in Attachment A.
- I attest to not currently being enrolled in the California Energy Commission (CEC) Demand Side Grid Support (DSGS) Program (Option 1). I also attest not to enroll on the CEC Demand Side Grid Support (DSGS) Program (Option 1) during the duration of my participation in the Flexible Pricing Rate Pilot.
- I understand that if I am found to be enrolled in any of the Demand Response programs listed in Attachment A that I will not be enrolled in the Flexible Pricing Rate Pilot until my unenrollment from these programs is complete.

Attachment A: Flexible Pricing Rate Pilot Participation Requirements

Participation in the Southern California Edison Company (SCE) and Clean Power Alliance (CPA) Flexible Pricing Rate Pilot (“Pilot”) is subject to the following requirements.

PILOT ELIGIBILITY

In order to qualify for the Flexible Pricing Rate Pilot, you must be enrolled in an eligible rate and not enrolled in a Demand Response program as listed below.

Enrollment

You may sign up by submitting an enrollment form to Southern California Edison, Clean Power Alliance, or your authorized Automation Service Provider (ASP). Customers may opt out of the pilot at any time by contacting CPA, SCE, or their ASP if applicable.

Eligibility Requirements

1. Your account must be on a time-of-use (TOU) rate³, not on any legacy rate options (Option A, Option B or Option R), and not on any street or area lighting rates.
2. Your account must not be currently enrolled in any of the following programs, rate schedules, rate options, or services, or enroll in any of these after enrollment on the Flexible Pricing Rate pilot:
 - a. All Supply-side Demand Response (SSDR) programs that count towards Resource Adequacy (RA) including SCE’s BIP, AP-I, SDP, SEP, CBP, and DR Contracts (LCR) programs
 - b. Other SCE or CPA event-based Load Modifying Demand Response (LMDR) programs or pilots including CPA’s Power Response program
 - c. ELRP Group A with the following subgroups:
 - i. Sub-Group A.1. BIP, AP-I, and SDP dual participants
 - ii. Sub-Group A.2. BIP Aggregators
 - iii. Sub-Group A.2. Non-BIP Aggregators
 - iv. Sub-Group A.4. Virtual Power Plan Aggregators
 - v. Sub-Group A.5. Vehicle Grid Integration Aggregators
 - d. ELRP Group B1 or B2
 - e. California Energy Commission (CEC) Demand Side Grid Support (DSGS) Program (Option 1)
 - f. CEC DSGS Option 2 and Option 3

³ Eligible rates include: TOU-D-PRIME, TOU-D-4, TOU-D-5, TOU-GS-1, TOU-GS-2, TOU-GS-3, TOU-PA-2, TOU-PA-3, TOU-EV-8, TOU-EV-9, and TOU-8. All currently available non-legacy rate options on these schedules are eligible, including Option E, Option D, NEM, and SBP.

PILOT DESCRIPTION

Pilot Duration

Unless extended by the California Public Utilities Commission, this Pilot will run through December 31st, 2027. After the end date, CPA and SCE will apply any outstanding bill credit to participating customers' bills, typically within 1 to 2 billing periods.

Pilot Billing and Benefits

While participating in the Pilot, customers will continue to be billed monthly on their current rates as determined by their applicable CPA and SCE rate schedules and tariffs.

In parallel, an SCE-approved vendor will use "shadow billing" to track the customers' potential savings while participating in the Flexible Pricing Rate Pilot. The shadow bill is not an actual bill that the customer must pay, but merely a tracking and calculation tool. Shadow billing is intended to reward the customer for reducing usage during high-demand hours when the dynamic rate (determined by available day-ahead pricing) is higher.

Shadow billing compares the customers' usage from the year before joining the Pilot ("subscription load") on the customers' standard rate ("subscription rate") to their usage while on the pilot ("dynamic load") at the pilot rate ("dynamic rate"), as follows:

The shadow bill will first calculate charges (at the hourly interval level) for the customers' subscription load at the subscription rate. During intervals where the customers' dynamic load is less than the subscription load, the shadow bill will credit the customer with the difference between the subscription load value and the dynamic load value at the dynamic price. During intervals where the customers' dynamic load exceeds the subscription load, the shadow bill will charge the subscription load at the subscription rate and the excess dynamic load at the dynamic rate.⁴

While on the pilot, customers will continue to pay their regular monthly bills. CPA and SCE will track the shadow-billed charges for comparison with their regular bill each month. At the end of the 12-month participation period, if the customer's shadow bill has a cumulative net credit for generation and/or delivery charges, the customer will receive a bill credit in that amount from CPA for generation credits and/or from SCE for delivery credits. If the customer's shadow bill has a net generation or delivery charge at the end of the 12-month participation period, the customer will not be billed for any additional charges.

12-Month Participation Period

At the end of the customer's first 12 months of participation in the pilot, CPA and SCE will apply any net credit to the customer's bill, which typically occurs within 1 or 2 billing periods. After 12 months the customer will start a new 12-month participation period, and this will repeat until the end of the pilot's duration period. Customers who opt out of the pilot or are otherwise disenrolled from the pilot before the end of the 12-month participation period will receive their credits, if any, upon termination of enrollment in the pilot.

⁴ For the purpose of shadow billing calculations, subscription rates will be based on SCE standard generation and delivery rates, and dynamic rates will be based on SCE's day-ahead marginal cost-based rates. Dynamic Rates for the following day will be posted on a daily basis at SCE.com.

Opting Out

There is no minimum time commitment. Customers may elect to opt out of the program at any time and will not forfeit credits accrued, if any, during the participation period. Customers can opt out by contacting SCE, CPA, or their Automation Service Provider and the opt-out will typically be processed within 1 to 2 billing periods.

Flexible Pricing Rate Pilot Disclaimer

CPA makes no representations or warranties with respect to the Pilot or CPA's services hereunder, and CPA expressly disclaims any and all representations and warranties, express or implied, with respect to the same, including, without limitation, merchantability and fitness for a particular purpose. Customers who choose to participate in this program are not obligated to purchase any additional goods or services. This program is funded by utility ratepayers and administered by SCE under the auspices of the California Public Utilities Commission. The selection, purchase, and ownership of any goods and services are the sole responsibility of the customer. The program and incentives will continue until funding is exhausted or the program is terminated, whichever comes first. The program is subject to change without notice. SCE or CPA may remove any customer from the program if the customer violates any of these terms and conditions outlined.
